To whom it may concern:

Re: Recommendation for Kristopher Kato

Dear Hiring Manager,

We had the pleasure of having Krisopher Kato work on our e-mail newsletter in 2007. We were initially impressed by his computer knowledge and attention to detail.

Kristopher implemented our first online newsletter, designed our masthead logo, researched the target market and trained the administrators in using the new software.

We were pleased that he was able to complete the assignment on time, and we have since made good use of the newsletter.

Kristopher is a hard working individual and has my highest recommendation. His analytical skills and creative talents would make him an outstanding performer for your company.

Please contact me if you need more information.

Sincerely,

Ron Chong
Chairman
